 - the formats of MCQs will be determined by the domain of learning (Knowledge, Understanding, and Application) on which the Learner is to be assessed
 - the MCQ paper will consist of 30 questions covering the mandatory and chosen optional units
 - each MCQ paper will be composed of MCQs with 1 correct answer and 3 distractors
 - Learners outside of England, Wales and Scotland will receive an international paper where questions covering UK legislation will not be asked, however learners may be required to discuss relevant local legislation during oral questioning by the CIBTAC examiner in practical exams for units linked within the same qualification

The overall grade for the qualification will be determined by the grades achieved for all units carrying an external assessment. The qualification grade is the lowest unit grade. To receive a pass, all portfolio-only units must be achieved and all externally examined units must receive a pass score. To receive a merit all externally examined units must have received at least a merit score. To receive a distinction, all externally examined units must have received at least a distinction score.

Grade threshold may be subject to change.

10. Initial assessment and Induction

Approved Centres will need to undertake an initial assessment of each Learner prior to the start of their programme to make sure that the level and type of qualification is appropriate. The initial assessment should identify any specific needs that the Learner may have and the support and guidance they will require when working towards the achievement of their qualification. CIBTAC recommends that Learners undertake a relevant induction programme to familiarise them with the requirements of the qualification they will be undertaking, their responsibilities as Learners and the responsibilities of the approved Centre. A learning contract or professional development plan may be useful in this respect.
